

Cannabis

Type/Sorte	Industriehanf, Felina 32 Cannabis Sativa																																																																																						
	Felina 32 ist eine französische Industriehanfsorte, welche EU-weit von Hanfbauern angebaut wird.																																																																																						
Produkt	Hanf (Hanffasern, Schäben, Blüten, Blätter)																																																																																						
Zustand	getrocknet																																																																																						
Herkunft	EU / Kroatien																																																																																						
Menge verfügbar	1.000 Tonnen																																																																																						
Mindestabnahme																																																																																							
Verpackungseinheit																																																																																							
Zertifikate	Ja, vorhanden																																																																																						
Analysen	Ja, vorhanden
